The chart for the equivalents between the percentage method and the hierarchical method, as well as the G.P.A. computation method, is shown as follows (the passing score for undergraduate students is 60, while that for graduate students is 70).

Score range	Grade	GPA	Definition
80-100	A	4	Most goals adequately achieved
70-79	B	3	Most goals achieved without significant flaws
60-69	C	2	Some goals achieved with minor flaws
50-59	D	1	Minimum goals achieved with major flaws
0-49	E	0	Most goals not achieved
